

Dear Parents,

**It was reported that some students have attempted to climb the construction fencing surrounding the blacktop after school today. Student safety is our top priority. Please communicate to your student that this is a working construction site and is restricted to authorized personnel only.**

Below you will find previous communications regarding the ongoing construction taking place at the back of the building:

- **The fenced perimeter behind the school, including the blacktop, will be closed through September 2023.**

Additionally, here are further updates related to recess and bike racks:

#### **Recess**

- All students in grades 6-8 will exit the Baker Building doors at the beginning of lunch/recess.
- Students will have to use the bridge passing located at the edge of the parking lot. (See yellow arrow.)
- All students grades 5-8 will enter Baker Building doors from recess or lunch (unless in the auditorium.)

#### **Bike Racks**

- The bike racks that were typically located on the blacktop will be dispersed and located by the Baker Building doors, the front gym entrance, and in front of the schoolhouse similar to last year.

#### **Drop Off/Pick Up Tunnel**

Students will still be able to come to school through the tunnel but will have to turn left and go around the north side of the school to enter the building.

- Grades 1-5 will enter thorough the front of the building.
- Grades 6-8 will enter through the Baker Building door.

The blacktop will be closed off for the remainder of the school year and next school year as well.

If you have any further questions regarding the MFP or the construction timeline, please contact [construction@kenilworth38.org](mailto:construction@kenilworth38.org).

Thank you,

Dr. Stephanie Helfand  
Principal
